CTGMS PROPERTY TAXES REPORT:

In the May business meeting one order of business was to answer the tax offices's letter reappraising the CTGMS property, raising the taxes, and changing the property status to residential. Carlos Tally is the contact member working with the tax office to see what we need to do to get this corrected.

Last night at the June 6th business meeting, Carlos reported that he has met with the Central Appraisal District and it appears the CTGMS will be granted full TAX EXEMPTION status.

THANKS CARLOS! GOOD JOB!
